

ultra spa™

FREE STANDING

Direct-cool water
dispensing with extra choice
and advanced hygiene....

Extra choice at the touch of a button -

Purified water at
room temperature

Refreshingly cool purified
chilled water

Chilled and purified
sparkling water

Advanced hygiene -

Point-of-use convenience
coupled with direct-cool
technology make Ultra spa the
most hygienic water dispenser
available in your workplace
today. Optimum water
purification is also ensured
at all times via the filter-life
water monitor.

Presented in compact style -

Ultra spa's sleek silver body
has been cleverly designed to
enable water to be dispensed
into a cup, a highball, a
water bottle or even a jug.

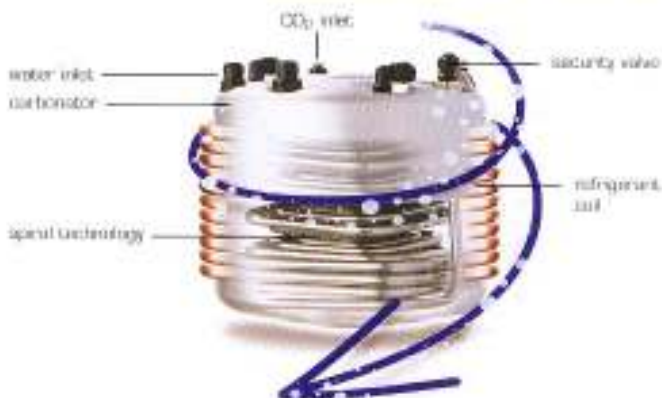

**Who'd have thought
drinking water could
get this good!**

new **direct cool** technology the secret at the heart of **ultra spa™**

AM2000
Control Panel

The 'heart' of UltraSpa – a sealed water processing unit, capable of delivering purified, direct cooled, sparkling or room temperature water on demand. Water passing through the unit is protected against contamination all the way to your cup. Every potential source of bacteria has been eliminated – there is no water tank, no air intake and no time delay. UltraSpa – drinking water has never got this good!

Superior range of filters providing optimum purification
